

What is SHORT-TERM DISABILITY INCOME INSURANCE?

Group Short-Term Disability Income Insurance

Protection for Disabilities that last less than 6 months. Long-Term Disability Income coverage helps provide protection in the event you're disabled for an extended period. Most disabilities last less than six months. But even a short-term disability can cause a severe financial hardship.

Waiting Period. The Waiting Period is the duration of time you must be totally disabled from a covered accident or illness before benefit payments begin. The longer the waiting period, the lower your cost.

- Plan 1 benefits begin on the 8th day of a disability
- Plan 2 benefits begin after 30 days of disability

Maximum Benefit Period. Two benefit period options are available so that you can coordinate with your Long-Term Disability waiting period. You can choose a maximum benefit period of 3-months or 6-months from date of disability (including waiting period).

Maternity Benefits. A disability resulting from routine pregnancy, childbirth, or related medical condition (except complications of pregnancy) will be considered a covered disability subject to an attending physician's certification pre- and post- delivery. The maximum benefit period for such a disability will be no more than three months. Complications of pregnancy are covered as any other illness.

Benefits will not be paid for a pre-existing pregnancy until the end of 12 consecutive months during which the member has been insured.

Eligibility. ACS members (including full-time members of the armed forces) under age 60, who are actively performing all the duties of their surgical profession, or other primary occupation at least 20 hours per week, may apply for coverage. This coverage is available to residents of the United States, Canada and Puerto Rico (excludes residents of Washington state, Nevada, Quebec, and other U.S. territories).

Fits Your Needs. You may select a monthly benefit from \$200 to \$10,000 in units of \$100. Your ACS Short-Term Disability Income coverage, when combined with all other disability income protection benefits you already carry (excludes ACS Supplemental Disability which is intended for educational expense obligations), cannot exceed 60% of your Average Monthly (professionally earned) Income, 70% if purchased with ACS Long-Term Disability (LTD).

"Average Monthly Income" means your average net monthly earnings (including the cost of fringe benefits and share of total surplus) after business expenses and before taxes, for the immediately preceding 12 month or 24 month (if higher) period. Excludes income from interest, dividends, rent, royalties, annuities, other insurance and other income for which no service or work is performed.

Underwriting Requirements. All applicants must meet the New York Life underwriting requirements (satisfactory evidence of good health) to qualify. Neither the College nor the Insurance Trust participates in decisions concerning insurability of applicants. The Administrator follows the Insurance Company's eligibility guidelines to evaluate enrollment forms. Thus, all final decisions regarding insurability are the sole responsibility of New York Life Insurance Company.

30-Day No Obligation Free Look. When your application is approved, you will receive a Certificate of Insurance detailing your coverage under the group policy(s). You will have a full 30-days to review your certificate to determine if it is right for you. If it is not, simply return it to the plan administrator, without claim, within the 30-days for a full refund of any premium paid. No Questions Asked!

Definition Of Total Disability. This coverage defines “total disability” as your incapacity due to an illness or accident to perform the material and substantial duties of your surgical or medical specialty or primary occupation, provided you are not engaged in any other occupation for pay or profit.

Recurring Disability. Successive periods of disability due to the same or related cause and not separated by a return to active practice for at least six consecutive months will be considered one period of disability, as will unrelated disabilities that are not separated by return to active practice for at least one full day. Disabilities that meet these separation requirements will be treated as a new disability.
